ACOSTA, A., *see* París, F., Tarazona, V., Casillas, M., Blasco, E., Cantó, A., Pastor, J., and Acosta, A.
Actinomycosis, thoracic, 73
ADAM, J. E. R., *see* Cotes, J. E., Saunders, M. J., Adam, J. E. R., Anderson, H. R., and Hall, A. M.
Adenocarcinoma in columnar epithelial lined lower (Barrett) oesophagus, 511
Adenocystic tumour of trachea, clinical sign of, 442
Adenoma, bronchial, at Brompton Hospital (1955–1972) (P), 665
Aerosol bronchodilator drugs, clinical assessment of, 124
Airflow, expiratory, in chronic airways obstruction, determinants of, 48
  obstruction, breathing patterns, work cost and CO_2 responsiveness in (P), 661
  obstruction, chronic, bronchial compliance in post-mortem lungs from patients with (P), 663
Airway closure in pulmonary congestion and oedema (P), 266
  goblet cells, effect of isoprenaline and pilocarpine in rat (P), 662
  large and small, contribution to total airways resistance and tests of forced expiration (P), 265
  obstruction, chronic, expiratory airflow in, determinants of, 48
  obstruction in relapsing polychondritis (P), 662
  obstruction, inspiratory lung crackles in, relationship to mechanical events of breathing (P), 261
  obstruction, reversible, comparison of cardiorespiratory effects of terbutaline and salbutamol aerosols in, 592
  small, abnormality of (P), 265
  small, behaviour of, correlation between methods of measuring (P), 266
  small, disease of, and cigarette smoking (P), 267
  small, disease of, detection by frequency dependence of compliance (P), 265
  small, disease of, in asthma (P), 266
  small, disease of, in coalworkers' pneumoconiosis (P), 267
  structure (P), 265

Aneurysm, pulmonary arterial, 644
  saccular, due to bacterial endocarditis in syphilitic aorta, 529
Angina pectoris, exercise tolerance in, effect of tolamolol, 331
Antibiotic sensitivity of *Pseudomonas aeruginosa* (P), 264
  solution, heart valve allografts treated with, pathology of, 473
Antibody response to inactivated influenza vaccine administered by different routes in chronic broncho-pulmonary disease, 721
Aorta, ascending, and right pulmonary artery, anastomosis of (Waterston's operation), 152
  syphilitic, saccular aneurysm due to bacterial endocarditis in, 529
Aortic and mitral fascia lata valves, natural history of, 458
  incompetence, massive, associated with Björk-Shiley prosthesis, 627
  valve allografts, fresh, histopathology of, 482
  valve, prosthetic, Starr-Edwards, cloth-covered (No. 2300), thrombo-embolic complications of, 41

Aortic—contd.
valve replacement with autologous fascia lata prostheses, haemodynamic results of, 169
valve replacement with unsupported autologous fascia lata, 603
valve surgery, major, maintenance of high central venous pressure after, effect on blood volume, 762
Aortopulmonary artery fistula, recurrent, 521

Heart Disease in Infancy: Diagnosis and Surgical Treatment

Proceedings of the Second International Symposium held at Green Lane Hospital, Auckland, New Zealand, February 1972.

Edited by Brian G. Barratt-Boyes; John M. Neutze; and Edward A. Harris

1973 356 pages 114 illustrations £8.00.

'Many of the most challenging aspects of congenital heart disease in infancy are discussed in considerable detail, both as regards diagnosis and postoperative management.'—*Extract from the preface.*

Recent Advances in Cardiology

Edited by John Hamer

1973 Sixth Edition 438 pages 110 illustrations £5.50.

This volume provides a practical guide to some of the newer developments that have dramatically changed both medical and surgical approaches to many aspects of cardiology.

Clinical Aspects of Thromboembolism
